

Orthodontics is for All Ages

For many years orthodontics was strictly “kid stuff”. This is no longer the case. Over the years, the technology has advanced to the point where orthodontics can help almost anyone, regardless of age (children or adults). Because misaligned teeth occur in about 65% of children, the American Association of Orthodontists recommends that all children be screened by an orthodontist at about seven years of age. Preventing problems early may be more effective and less costly than waiting until adolescence for treatment.

Affordable Fees, Convenient Payment

Our low monthly fees will easily fit into most family budgets. We offer convenient payment options and accept many dental insurance plans.

Changing People's Lives, One Smile At A Time

Welcome

Welcome to My Orthodontist. We would like to thank you for choosing our practice to meet your orthodontic needs. Each member of our staff is highly trained to assist you throughout your orthodontic experience. Our orthodontic team is dedicated to providing you with the finest orthodontic care you expect in the most comfortable setting. In addition, we strive to offer you the exceptional service you deserve by using the most advanced technology and techniques to ensure excellence of diagnostics and treatment.

Benefits of Orthodontic Treatment

The goal and benefit of orthodontic treatment is the achievement of function, balance, and harmony between the teeth and face for a lifetime of beautiful and healthy smiles. Orthodontics not only improves your appearance, it also relieves unnecessary strain and discomfort that occurs when teeth do not meet properly. An attractive smile can greatly enhance a person's self-esteem and self-confidence, which adds to one's quality of life.

Working With Your Family Dentist

One key to helping you achieve your ideal smile is working closely with your family dentist. We are always in close communication with your dentist throughout your treatment in our office. Since much of your orthodontic treatment is dependent on good oral health, this contact is essential to provide you with the highest quality results in the shortest amount of time. While you are receiving orthodontic treatment, you should continue to see your family dentist every six months to have routine follow-up care and dental cleanings.

About Dr. Saffar

Dr. Ron Saffar has been creating beautiful smiles since 2002. He earned his dental degree and completed specialty training in Orthodontics at the New York University School of Dentistry.

He also completed a six-month fellowship in Surgical Orthodontics at the New York University School of Medicine. Dr. Saffar is a member of the American Association of Orthodontists, American Dental Association, Mercer County Dental Society and Past President of the Hudson County Dental Society. In addition, Dr. Saffar has had several abstracts published and has lectured at the AAO convention, New York Greater Dental meeting and the IADR meeting. In his spare time, Dr. Saffar enjoys golf, tennis, skiing, traveling and spending time with his family and friends. He and his wife, Parissa, have one daughter, Nikki.

About Dr. Cutler

Dr. Alan Cutler is a graduate of Temple Dental School and completed his Orthodontic residency at the University Of Pennsylvania. Upon graduation he opened a private practice in Cherry Hill, NJ and taught as a clinical instructor in orthodontics at University of Pennsylvania. He was also the head of their special patients' clinic. After 8 years at Penn while continuing in private practice, he was promoted to associate in orthodontics and chosen to head the Crossman Clinic a private practice facility for Penn instructors. In 1984 he became the chairman of the Orthodontic Division of Medical College of Pennsylvania. In 1997 he opened a second office in Deptford, NJ to better serve the South

Jersey community. In 1999 he began teaching orthodontics at the Episcopal Hospital division of Temple University in the pediatric dental residency program. He recently resumed that capacity after a ten year absence. In April 2012 he merged his practice with Saffar Orthodontics to enhance and continue the excellent treatment of his patients.

Our Staff

Our staff is dedicated to providing you with the best orthodontic care possible. To accomplish this, we work together as a team. Working together in this fashion enables us to reach our common goal of helping you achieve optimal oral health through exemplary orthodontic care. If you have any questions, please do not hesitate to ask. Our friendly, knowledgeable staff is eager to help you in any way we can. Everyone in our office, from our appointment coordinator to our insurance specialists to our clinical assistants, make serving you the number one priority.
